Cc Jeremy Martin <jmartin@amadorgov.org>; Jason Navarre <jnavarre@amadorgov.org>; Jeffrey Bellotti <jbellotti@amadorgov.org>; Bryan Middleton <bmiddleton@amadorgov.org>; Kyle Wilson <kwilson@amadorgov.org>; Mark Ham <mham@amadorgov.org>

All,

I am preparing to push out our policy regarding license plate reader cameras and the associated software. Part of the policy is to have some type of training regarding the use of the system. For now we are going to accomplish this by having users review the training materials put out by Flock and then take their Search Tool Certification Program. Once you successfully pass the test you will be e-mailed a certificate which you can print out and leave for Sergeants Ham or Wilson to place in your training file.

To access the training materials and the test you will need to log into Flock and click on the blue robot in the lower right corner. There will be some drop down windows with the applicable lessons with the bottom box being "Certifications." Within the certifications window you will find the Search Tool Certification Program.

Please let me know if there are any issues with the training or the service. Try to have this done by the end of the month please. If it goes well for you guys we will continue to push the resource out to patrol staff.

Thanks
