

Flock Nova

Unify your data, uncover connections, and solve cases faster

Centralize your data — from CAD, RMS, Flock LPR, open-source databases, and inter-agency networks — into a single, easy-to-use platform. Designed for investigators, detectives, and crime analysts, Flock Nova offers streamlined people and location search, advanced investigative tools, and actionable analytics to accelerate case resolutions and uncover key connections that might otherwise go unnoticed.

PROBLEM

Law enforcement agencies face disconnected data spread across many systems, making it difficult to quickly gather critical intelligence. Siloed platforms, limited inter-agency collaboration, and time-consuming data retrieval slow down investigations and delay decisions, impacting public safety outcomes.

SOLUTION

Flock Nova unifies fragmented law enforcement data into one centralized platform, giving agencies fast, streamlined access to critical intel. With Google-like search, network mapping, and deep integrations with existing workflows, Nova enables efficient collaboration and informed, timely decisions.

UNIFIED DATA. INSTANT RESULTS.

Stop switching between systems — instantly find key details from video, LPR, CAD, RMS, and open-source databases, all in one place. Uncover patterns and relationships that otherwise might be missed.

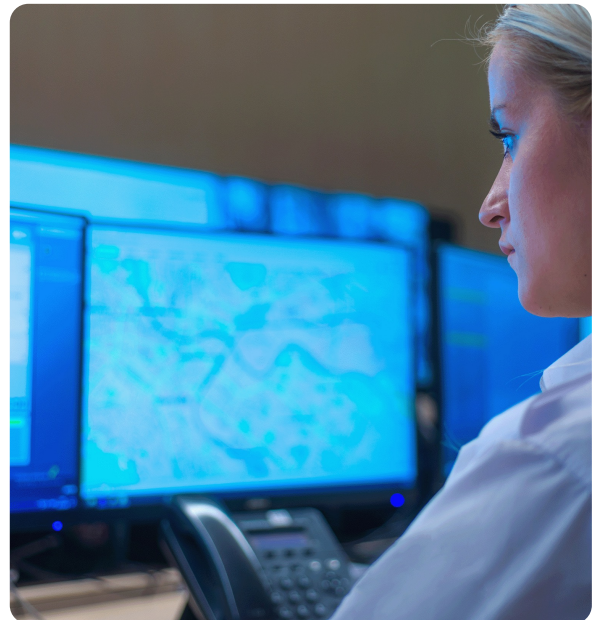

VISUALIZE KEY CONNECTIONS

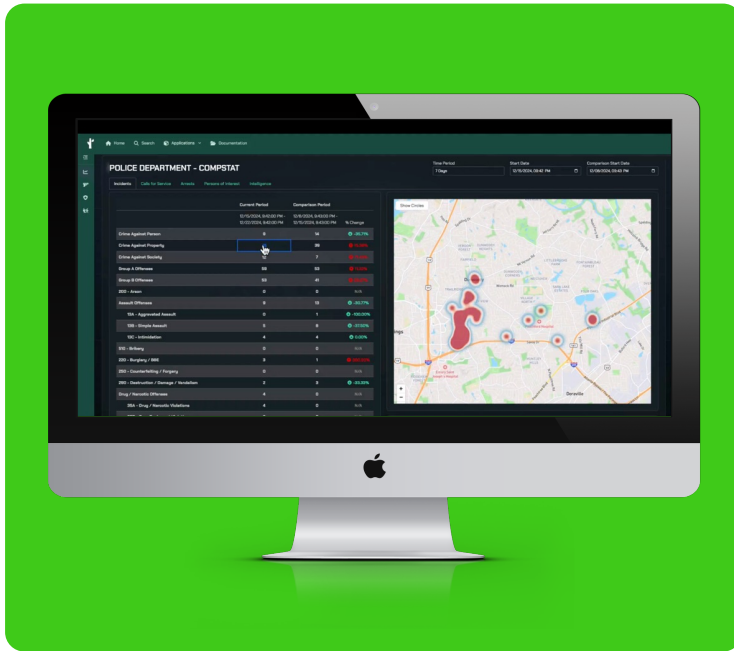

Spot critical links between suspects, locations, and vehicles through visual tools like spider maps to uncover leads faster. Reveal hidden relationships, accelerate case breakthroughs, and increase arrest success rates.

SEAMLESS COLLABORATION

Work across agencies effortlessly with shared data access, case management tools, and simplified coordination for complex investigations. Deconflict cases, exchange intelligence, and uncover criminal networks.

Built for Law Enforcement

CROSS-AGENCY COLLABORATION MADE EASY

Seamlessly share RMS and CAD data across jurisdictions with simple data-sharing agreements to improve case deconfliction and coordination.

FIRST-PARTY AND OPEN-SOURCE DATA COMBINED

Make connections that solve cases by accessing both internal data and open-source records on properties and people.

WORK FASTER WITH INTEGRATED WORKFLOWS

Automatically pull full case dossiers from 911 calls, LPR alerts, or video events with one click, keeping workflows uninterrupted and efficient.

Who Benefits?

INVESTIGATORS & DETECTIVES

Quickly access case-critical information by searching CAD, RMS, LPR, and external data in one place.

Uncover leads faster with visual tools that reveal hidden connections between suspects, vehicles, and locations.

Stay organized with streamlined case management and collaboration tools.

LEADERSHIP

Make data-driven decisions with instant access to case updates, reports, and performance metrics.

Improve agency efficiency with tools that streamline collaboration and case resolution.

Optimize policing operations by deploying resources effectively and adapting to emerging needs.

CRIME ANALYSTS

Identify patterns and trends by analyzing data from multiple systems in a centralized platform.

Generate actionable intelligence that help investigators and command staff make informed decisions and stay ahead of criminal activity.

Provide insights that direct resources proactively and support crime prevention strategies.

INFORMATION TECHNOLOGY

Centralize data from many systems into one platform, eliminating silos and improving team efficiency

Rely on a cloud-based, secure system with automatic updates.

Ensure that all law enforcement personnel have access to the intelligence they need.
